November 19, 2024

1 Non-functional Requirements Coverage

All measurable non-functional requirements specified in the Software Requirements Specification document have been tested and verified on a local machine. It is not guaranteed that the non-functional requirements will be satisfied on other machines or under different conditions. For the unmeasurable non-functional requirements, they are not tested but are generally recognized as satisfied by the development team.

2 Functional Requirements Coverage

The following table shows the implemented functional requirements specified in the Software Requirements Specification document.

Functional Requirements	Implemented
FR-1.1	✓
FR-1.2	✓
