

What should we include in A2?

Ask: What do our readers want to know?

What is your proposed idea?

- **Introduction:** Introduce problem and purpose

What do you hope to achieve?

- **Goals and Objectives:** State your goal and objectives

Why is your proposed idea needed?

- **Current Situation:** Justify problems, needs and limitations of existing solutions - *with reference to authentic, relevant and credible sources*

Will your proposed idea make a difference?

- **Benefits:** Highlight social impact

How does your idea work? Why will it work?

- **Product Overview and Technical Details:** Use visuals to explain features, functions and feasibility – *materials, resources and technology*
- **Project Team:** Showcase Authenticity and Professionalism

How should we format A2?

- Organise everything listed in “What Should We Include in A2?” clearly and logically
- Include an effective **Summary** and Conclusion
- **Include other additional sections as needed**
- Select a professional format

Are there samples?

- Samples in Unit 2: Guide Buddy Original and Revised Proposals (APA and IEEE)
- Annotated Samples: Finger Mouse and Sign Bridge

When is it due?

- Within 48 hours of Week 13 Class

ELC Fund

A scheme for funding undergraduate ideation projects in the computing field which make people’s daily living more convenient, comfortable and safer, or address the needs of specific target groups.

With a maximum seed funding of HK\$150,000 over a one-year development plan, ELC Fund aims to support the research and initial development of authentic and original ideas with a positive social impact.

As PolyU undergraduate computing students, you are qualified for the ELC Fund, and in Assessment 1 (A1), you will collaborate in groups of 3 or 4 and write a group project proposal based on your authentic knowledge, interests, experience and skills.

How will our proposal be graded?

The ELC Fund Assessment Panel will review:

- Significance of the project goals and social impact
- Justification of problems, need and opportunities
- Uniqueness of project idea in comparison with existing solutions
- Feasibility of project idea
- Authenticity and credibility of project team
- Effectiveness of overall structure
- Professionalism of overall presentation

Assessment Rubric

Content (30%) Fulfillment of task requirement; Strength of arguments and justification of proposed idea; Quality and relevance of evidence

Organisation (15%) Effectiveness of overall structure; Logical connections between ideas; Effectiveness of methods and transitional devices to connect ideas

Communication (30%) Accuracy, conciseness, and consistency of language; Use of Visuals; Style & formality

Professionalism (25%) Authenticity and professionalism of team profiles; Quality of layout and effectiveness of formatting; Accuracy of citations and reference list

How will the MA Tasks help?

The Individual Milestone Achievement Tasks (Assessment 3) are designed to guide you through the assessment process by engaging in a series of active learning and peer learning activities. By completing these tasks, you will not only earn credit but also successfully complete the assessment tasks and achieve the intended learning outcomes. The focus is on the learning process rather than merely fulfilling the assessment requirements.

1. MA Task 3: Initial Proposal Idea Outline (Week 6 In-class)
2. MA Task 4: Pitching Your Idea (Week 7 In-class)
3. MA Task 5: Draft Proposal (Week 10-11)
4. MA Task 6: Complete Proposal Draft and Peer Review (Week 12-13)

What is the word limit of A1?

- Word Limit: 2000-2500 words
- Schedule and budget are not required

Feasibility within the \$150,000 budget and 1-year timeframe will be discussed during the idea sharing session and consultation.
